FEEDBACK ANALYSIS REPORT

The college considers that the overall growth and success of the college depends on the inputs from different stake holders like students, faculty, parents, alumni and employers. The input from the stake holders is taken every year and is analysed to estimate how the college is able to justify the requirements of students and provide them the best possible environment for their overall development. The Internal Quality Assurance Cell (IQAC) collects, evaluates and takes required action to implement the suggested changes by the stakeholders.
